The COMFY® NOODLE is a multifunctional, easy to use and beneficial sport aid. In addition to being used to **prevent and rehabilitate** from illnesses and injuries, it is also a useful **training aid** for those with a physical disability. The sense of weightlessness in the water is a wonderful benefit.

According to physical therapists, the COMFY® FOAM ROLLER is particularly suited to rehabilitation and prevention training. Activating the deep-lying muscles relieves back pain and improves posture. Body builders use the COMFY® FOAM ROLLER to **loosen muscles** before and after training.

Fitness & Rehabilitation

MOQ

Our COMFY® PRO BOARDS and the COMFY® PRO AQUAJOGGING belt are used mainly for swimming. Thanks to their various shapes, the kickboards are suitable for both children and adults.

Aquajogging has a particularly good training effect for those suffering from heart and vascular diseases, for building up muscle and connective tissue and as balance and stamina training. The aquajogging belt relieves joints with its bearing and shock-absorbing capacity. Overweight and elderly people in particular will benefit from this. Thanks to the aquajogging belt, rehab patients can train with less pain and discomfort.
